

of safeguards required under paragraph (a)(4) of this section.

[38 FR 9005, Apr. 9, 1973, as amended at 47 FR 13320, Mar. 30, 1982. Redesignated at 50 FR 9788, Mar. 12, 1985, as amended at 68 FR 37917, June 25, 2003; 70 FR 33325, June 7, 2005; 70 FR 72887, Dec. 8, 2005]

§ 319.56-2k Administrative instructions prescribing method of fumigation of field-grown grapes from specified countries.

Approved fumigation with methyl bromide at normal atmospheric pressure, in accordance with part 305 of this chapter, is hereby prescribed as a condition of entry under permit for all shipments of field-grown grapes from the continental countries of Asia, Europe, North Africa, and the Near East listed in paragraph (a) of this section. This fumigation shall be in addition to other conditions of entry for field-grown grapes from the areas named.

(a) *Continental countries of Asia, Europe, North Africa, and the Near East.* The term "continental countries of Asia, Europe, North Africa, and the Near East" means Algeria, Armenia, Austria, Azerbaijan, Belarus, Bulgaria, Cyprus, Egypt, Estonia, France, Georgia, Germany, Greece, Hungary, Israel, Italy, Kazakhstan, Kyrgyzstan, Latvia, Libya, Lithuania, Luxembourg, Portugal, Republic of Moldova, Russian Federation, Spain, Switzerland, Syria, Tajikistan, Turkmenistan, Ukraine, and Uzbekistan.

(b) *Ports of entry.* Grapes to be offered for entry must be shipped from the country of origin to New York or such other North Atlantic ports as may be named in the permit.

(c) *Precooling of fruit.* Grapes to be offered for entry must be shipped under refrigeration and the fruit may not be removed from the vessel until the inspector has satisfied himself that this requirement has been complied with and that the fruit can be moved promptly for treatment without danger of plant pest dissemination.⁶

⁶Grapes from countries where the Mediterranean fruit fly occurs are subject to the cold treatment as described in § 319.56-2d. Under certain conditions such treatment may be effected in transit or upon arrival at the port of New York.

(d) *Approved fumigation.* Approved fumigation shall consist of fumigation with methyl bromide at normal atmospheric pressure in a fumigation chamber that has been approved for that purpose by the Plant Protection and Quarantine Programs. The fumigation may also be accomplished under tarpaulins in a manner, satisfactory to the inspector, that will insure adequate air and fruit temperatures, volatilization, distribution, and concentration of the fumigant. Such fumigation shall be in accordance with part 305 of this chapter.

(e) *Supervision of fumigation.* Inspectors of the Plant Protection and Quarantine Programs shall supervise the fumigation of grapes and shall prescribe such safeguards as may be necessary for unloading, handling, and transportation preparatory to fumigation or other treatment. The final release of the fruit for entry into the United States will be conditioned upon compliance with prescribed safeguards and required treatments.

(f) *Costs.* All costs of treatment and required safeguards and supervision, other than the services of the supervising inspector during regularly assigned hours of duty and at the usual place of duty, shall be borne by the owner of the grapes or his representative.

(g) *Department not responsible for damage.* The treatments prescribed in part 305 of this chapter are judged from experimental tests to be safe for use with field-grown grapes. However, the Department assumes no responsibility for any damage sustained through or in the course of such treatment or by compliance with requirements under paragraph (e) of this section or in the precooling of fruit required prior to unloading from the vessel.

[24 FR 10788, Dec. 29, 1959. Redesignated at 50 FR 9788, Mar. 12, 1985, as amended at 68 FR 37917, June 25, 2003; 70 FR 33325, June 7, 2005; 70 FR 72887, Dec. 8, 2005]

§ 319.56-2l Administrative instructions prescribing method of treatment of imported yams.

(a) *Fumigation upon arrival.* Except as otherwise provided in paragraph (b) of this section, approved fumigation with methyl bromide at normal atmospheric
